2/ Tips for a Successful Appointment

Prepare Ahead

Make sure you have all your forms ready when you arrive. **Plan to arrive 30 minutes early.**

Travel Safely

Be sure to make all the necessary transportation arrangements to arrive at your appointment on time.

Bring Someone

We find having another person to listen and provide support can be a valuable resource.

Bring Your Tools

Bring all glasses, devices and portable technology that currently helps you function.

3/ Welcome – Learn What We're About

Spectrios Institute for Low Vision, formerly Deicke Center for Visual Rehabilitation, is dedicated to helping individuals with low vision lead full, productive lives. We offer a full spectrum of care treating the head, heart and eyes. We will help you find the right devices and technology to maximize your vision so you not only see better but live a more independent life.

When your eye doctor says nothing else can be done.... that's where we start.

	Your Head We educate you about your condition. We help you understand how to best use your sight. We work with you to understand your goals and teach you about strategies you can use to improve your ability to see with your current level of vision.
	Your Heart We understand from the experience of working with thousands of clients, the loss people feel when their vision can no longer be completely corrected. We help relieve the anger, frustration, and hopelessness that often follow a diagnosis of vision loss.
	Your Eyes We treat people with low vision. We are a teaching and research institution, a provider of low vision products and care – with access to the latest diagnostic technology and prescriptive devices. Our professionals are nationally recognized and our accredited program has served children and adults with vision loss for over 30 years.

4/ How to Find Us

We are located at:

The Deicke House of Hope
219 East Cole Avenue
Wheaton, IL 60187
Phone: 630-690-7115 | Fax: 630-690-9037

Once you are in Wheaton:

- We are located south of Geneva Road and Main Street, on the east side of Main
- Enter the parking lot from Cole Avenue
- We are located in the yellow house in the same parking lot as the Wheaton Eye Clinic

5/ What to Expect at Your Appointment

At Spectrios, we provide every patient with a comprehensive low vision evaluation. Your doctor will review your medical history, answer all your questions and work with you to tailor a program to help you achieve your goals. We want you to continue your care with your ophthalmologist/optometrist for disease management. We conduct a range of tests as needed to help us in monitoring and assessing your ocular health – to provide co-management of your disease with your ophthalmologist/optometrist.

We strive to educate you, motivate you and provide the glasses, tools, technology and training to improve your functional ability.

Assessment and Goal Setting			
Functional Goals  Your low vision doctor will assess your visual needs, help you set visual goals and provide education to understand your diagnosis.		Visual Acuity/Contrast We measure how well you see the letters on an eye chart for both distance and near visual tasks, and assess your ability to distinguish objects from the background.	
Visual Fields  This test measures how much vision you have and finds any central or peripheral vision loss.		Low Vision Refraction We determine the right prescription for glasses, and optical devices like magnifiers and telescopes to improve and maximize your vision.	
Potential Additional Assessments			
Ocular Health Exam  On an as needed basis we do a variety of tests that could include ocular pressure check and a dilated eye examination – to aid in co-managing your vision loss.		Fundus Photography This test lets the doctor look closely at your retina by taking pictures of the back of the eye. We use this information to show you how to maximize your vision	

6/ Comprehensive Low Vision Treatment Program

Based on your exam, a comprehensive treatment plan will be created with your doctor at your first visit. It can include several components:

Occupational Therapy/ Rehabilitation Training	Access Technology
To support independence and participation in valued daily activities by developing strategies and learning to use low vision tools, like glasses, lighting and environmental adaptation to reduce demands of everyday tasks.	To learn about adaptive technology and determine what tools (electronic magnifiers, scan-to-speech, smart phone technology, etc.) will best suit your needs. Training is provided, so you will know how to make the best use of your tools.

7/ Questions to ask your doctor

Plan to discuss your concerns about your vision with your doctor. Don't leave without having all your questions asked and a clear understanding of your diagnosis. Here are some questions you might want to consider:

1. What is my visual diagnosis? How does it affect my vision?
2. I am noticing changes in my vision. What could that mean?
3. Can I get special glasses to see better?
4. Can I drive again?
5. What next steps should I take to ensure the best possible outcome?
6. What other doctors might I need to see? Do I still need my specialist?
7. Why is occupational therapy important?
8. What tools and technology might be able to assist me in achieving my goals?

Add other questions that you want to make sure to ask the doctor:

8/ Insurance Information

Spectrios Institute for Low Vision accepts most commercial insurance and Medicare.

You are responsible for any charges not covered by your insurance. This can include deductibles, co-insurance amounts or co-pays. We will bill you at the time of service for any known non-covered charges. Refraction and many devices are generally not covered.

Medicare Spectrios will submit a claim to your Medicare. Any co- pays, co-insurance amount will be billed to you after your claim is processed. If you have not met your deductible you will be responsible for those charges.	Commercial Insurance Payment is due at the time of service. Spectrios will submit a claim to your insurance. Any reimbursement goes directly to the patient.
Medicare or Commercial Insurance – HMO Make sure that you get the appropriate referral from your primary care physician/HMO prior to making your appointment. Without a referral from your primary physician your HMO will not provide coverage and all costs will be billed to you.	

Affordable For Everyone:

- As a non-profit organization – no person who is visually impaired is denied services.
- Financial assistance may be available through grants, foundations and private donations for individuals who qualify. Please note that grants are for one calendar year and must be re-applied for every year.
 - Please call us for details: 630-690-7115 ext. 123.

SPECTRIOS INSTITUTE FOR LOW VISION ABN (Advanced Beneficiary Notice) Instructions

Medicare does not pay for everything, even some care that you or your health care provider have good reason to think you need. We know that Medicare does not pay for ***any type of refractive services, non-optical and optical devices (i.e. magnifiers, telescopes and reading spectacles), electronic magnification devices, and any type of testing for driving purposes, including visual field testing for driving.***

Reason: This is because Medicare and other insurances exclude coverage for vision correction, vision rehabilitation devices and related services. Driving related assessments are not covered because driving is not considered medically necessary. For these reasons, you will have to pay for these services at the time the services is provided.

The costs of the services not covered by Medicare/Insurance are as follows:

• Complex Vision Rehabilitation Refraction	\$75.00
• Driving Assessment	\$265.00
• Driving Fields Only	\$55.00

What you need to do now:

- Read the attached notice, so you can make an informed decision about your options.
- By selecting option 1 on the form, this allows us to submit to Medicare, and if denied allows you to contest the Medicare ruling.
- Please note, the costs listed above are out-of-pocket fees not covered by Medicare or other insurance plans.

Please read and sign the Medicare Advanced Beneficiary Notice of Non-coverage (ABN) form which we are required to provide you.

SPECTRIOS INSTITUTE FOR LOW VISION

A. Notifier: Spectrios Institute for Low Vision, 219 E. Cole Ave., Wheaton, IL 60187 P: 630/690-7115

B. Patient Name:

C. Identification Number: N/A

Advance Beneficiary Notice of Non-Coverage (ABN)

NOTE: If Medicare doesn't pay for **D.** services listed below, you will be responsible for the charges. Medicare does not pay for everything, even some care that you or your health care provider have good reason to think you need. We expect Medicare may not pay for the **D.** services listed below.

D.	E. Reason Medicare May Not Pay:	F. Est. Cost
Complex Vision Rehab. Refraction	Medicare and other insurances exclude coverage for vision correction, vision rehabilitation devices and related services.	\$75.00
Occupational & Rehab Therapy	If you are currently receiving Home Health services, Medicare might not cover this service.	Varies
Driving Assessment		\$265.00
Driving Fields Only		\$55.00

WHAT YOU NEED TO DO NOW:

Read this notice, so you can make an informed decision about your care, let us know if you have questions. Choose an option below about whether to receive the **D. Services** listed above.

Note: If you choose Option 1 or 2, we may help you to use any other insurance that you might have, but Medicare cannot require us to do this.

G. OPTIONS: Check only one box. We cannot choose a box for you.

- OPTION 1.** I want **D.** _____ listed above. You may ask to be paid now, but I also want Medicare billed for an official decision on payment, which is sent to me on a Medicare Summary Notice (MSN). I understand that if Medicare doesn't pay, I am responsible for payment, but **I can appeal to Medicare** by following the directions on the MSN. If Medicare does pay, you will refund any payments I made to you, less co-pays or deductibles.
- OPTION 2.** I want **D.** _____ listed above, but do not bill Medicare. You may ask to be paid now as I am responsible for payment. **I cannot appeal if Medicare is not billed.**
- OPTION 3.** I don't want **D.** _____ listed above. I understand with this choice I am **not** responsible for payment, and **I cannot appeal to see if Medicare would pay.**

H. Additional Information:

Do you have insurance other than Medicare? If so, what is the name of that plan and you member number? _____

This notice gives our opinion, not an official Medicare decision. If you have other questions on this notice or Medicare billing, call **1-800-MEDICARE** (1-800-633-4227/TTY: 1-877-486-2048).

Signing below means that you have received and understand this notice. You also receive a copy.
